F4 (P) Senate/MNIT/Acad/2015/32-1 dated 15.04.2015 placed at **Annexure - G (Pg. 67-68)**. It has been experienced that many students are facing the problem that they are not able to get PAN Card from their Landlord. In this regard, the opinion was sought from Assistant Registrar (Audit) regarding PAN card condition for HRA to PhD students in light of CBDT rules. The opinion of Assistant Registrar (Audit) is "As per CBDT circular No. 8/2013 dt October 10, 2013, if annual rent paid by an employee exceeds Rs.1,00,000/- it is mandatory for the employee to report PAN of the landlord to the employer. In case the landlord does not have PAN, a declaration to this effect from the landlord should be filled by the employee. In case of rent paid less than or equal to Rs.1,00,000/- it is not mandatory to obtain PAN of the landlord. As HRA is being paid to PhD scholars, same CBDT rules may be made applicable on PhD scholars too."

Such students

However, for second year onwards, the promotion policy is different in which student having CGPA between 4.5 and 5 may proceed to higher semester. It has been observed that it is difficult to implement two different policies, therefore, it is suggested that the promotion policy for first year students may be kept the same as the policy for second year onwards students. The revised promotion policy for first year students and existing policy are placed at Annexure I-1 & I-2 (Pg. 70-71 i to 71 iv) respectively.

Item No. 33-3.16 : To consider "I" grade for extension of B.Tech. Final year Project.

22-2.2	<p>To consider the change in nomenclature of Grade awarded to the students involved in the unfair means.</p> <p>As per Item No. 32-3.5 of 32nd Senate meeting, the Senate referred this matter to SUGB for deliberation. Currently "F" grade is reflected in the grade sheet of students who are given F grade as a punishment by Unfair Means Committee. SUGB recommended that there should not be any change in nomenclature of 'F' grade for cases of Unfair Means.</p>
22-2.3	<p>To consider proposal of replacing mandatory Industrial Training with optional summer internship.</p> <p>As per Item No. 32-5.10 of senate meeting, this matter was placed before SUGB for discussion. The SUGB deliberated on the agenda and recommended that Industrial Training may be converted as an Elective course. Other alternatives under this elective may be provided such as Training in R&D Labs, CFTIs, which need be decided and declared by the DUGC of the respective Department. It is recommended that this matter involves all the Departments therefore, kt may be circulated to all DUGC for their feedback. After due compilation, it will be taken up in next SUGB meeting.</p>
22-2.4	<p>To consider the proposal of offering final year major project as optional.</p> <p>The SUGB deliberated on this agenda item. After deliberation SUGB recommended that final year project should continue to remain mandatory. However, to improve the seriousness and quality of the B.Tech. projects the following need be adopted:</p> <ol style="list-style-type: none"> 1. if the performance of any student in project is not satisfactory then the student may be given 'I' grade for incomplete work and it should be extended for the summer term. This modification may be included in the UG regulations once adopted. 2. Moreover, SUGB also recommended that project can be divided into two parts: Part A in VII semester and part 'B' in VIII semester. Both the parts should be evaluated by the same external examiner. 3. Also, departments should try make smaller project groups (upto 2 students per project group) so that it becomes more focused and concentrated effort. 4. For making project Optional needs more deliberation and large change in UG scheme, which should be explored in next round of major revisions.
22.2.5	<p>To consider grades of students who go for internship in a semester.</p> <p>As per UG regulation clause 12.g, "W" is printed on the transcript with an explanatory note that "W" stands for waiver for work done at the Institution concerned. However, "W" already stands for withdrawal in a course.</p> <p>SUGB recommended that for Withdrawal there should be grade 'WD' and for waiving off the courses against internship, 'WR' should be reflected in the transcript with explanatory note that "WR stands for waiver for work done at the Institution concerned.</p>

22.2.6	<p>To consider inclusion of student members in SUGB.</p> <p>As per UG regulations, for SUGB constitution, two undergraduate students are required as SUGB members. One student should be overall topper at the end of third year among all the UG programs and Branch topper at the end of second year by rotation excluding the branch of overall topper at the end of third year.</p> <p>SUGB recommended that one student member should be Ms. Priyanka Sharma (2012UMT1092), overall topper in UG among all branches (CGPA 9.66 up to B.Tech. third year). It was recommended that for nomination of second student member, the branches should be rotated alphabetically. Therefore, Ms. Pragya Agrawal (Student ID 2013UAR1059, CGPA 8.66), topper up to B.Arch. second year Architecture and Planning was nominated as SUGB student member. They will be invited and shall take part of SUGB from next meeting. Additionally, all DUGC shall be requested to ensure students participation in their deliberations as desirable in UG RRs.</p>
22.2.7	<p>To consider application of Mr. Sanjay Thakur (2012UCP1035) and Saatwik Shah (2012UCP1330) for internship in VIII semester.</p> <p>SUGB considered the application of Mr. Sanjay Thakur (2012UCP1035) and Saatwik Shah (2012UCP1330) for doing internship in VIII semester at Universite du Quebec a Montreal, Canada and Montreal Institute for Learning Algorithms, Canada, respectively. Their application came with the recommendations of DUGC of CSE department. The SUGB recommended them to take up internship on the basis of recommendation of DUGC of Computer Science and Engg. Department which requires additional course credits of VIII Semester as well in addition to the internship period.</p>
22.2.8	<p>To consider the cases of students of 2014 batch whose CGPA upto First year is less than 5.0.</p> <p>Some students who obtained CGPA less than 5.0 have registered in some courses of third semester, however, as per rules for semester promotion policy of students moving from second to third semester, such students should be subject to an year back i.e. he/she would have to repeat the semester in which SGPA is less than 4.5 and for the other semester the student would register for "D" and "F" grade courses. Such students have mentioned that they registered for regular courses because ERP was showing their status as academically deficient.</p> <p>SUGB recommended that such students may be permitted for once, however, if their CGPA is again less than 5.0 at the end of III Semester then they may be subject to year back.</p>
22.2.9	<p>To consider the cases of students of 2013 batch whose CGPA was less than 5.0 in First year and Second year both.</p> <p>Some students have registered in V semester whose CGPA was less than 5.0 in First year and Second year both. As per rules approved in 32nd meeting of Senate held on March 28, 2015, "In case even after an year back, the student fails to attain the minimum CGPA of 5, he/she would be relieved from the program at the end of the</p>

	<p>year (i.e. would not be permitted to continue further in the institute)."</p> <p>SUGB recommended that they can be permitted for registration in this semester, however, if CGPA is again less than 5 by the end of this semester, then they may be considered for relieving from the program.</p>
22-3.0	Any other item with permission of Chair
22-3.1	<p>Consideration of work load given to First Year Coordinator</p> <p>Considering the work volume required at the level of first year coordinator and desirable attention, it was proposed that there shall be two program advisors for sharing the load of first year work. This will help counsel newly entered students to MNIT Jaipur.</p>
22-3.2	<p>Consideration of Single Mid-Term Exam in place of two mid-Term Exams</p> <p>It was proposed that the two Mid-Term Exams can be replaced by a single Mid Term Exam with two class quizzes in place of existing two MTEs per course per semester. A sub-Committee comprising of Dr. Lava Bhargava (Associate Dean, PG), Dr. Kailash Singh (Associate Dean, UG), and Dr. Tarun Varma was constituted to explore the possibility and give its recommendations in this regard in view of existing practice in other CFTIs with implementation details in our scheme.</p>
22-3.3	<p>Incorporation of Amendments in the UG rules</p> <p>It was suggested that the amendments done in UG regulations time to time can be incorporated in UG regulations manual and an updated version of this manual may be crated for Institute on website. Also, it was felt to revisit the set of rules and suggest amendments from learning from past few years from their implementation. Two committees are constituted as under:</p> <ol style="list-style-type: none"> 1. 3-2.0	Request by Harshit Kudeshiya (2010UIT174) for refund of fee Harshit Kudeshiya (2010UIT174) is a PWD student having severe health problems and poor financial condition. The student has already been given exemption of full fee by the Chairman, Senate. The application for refund of fee paid by him in IV and V Sem (in which he had taken withdrawal) was discussed; it was recommended that he may be given refund of tuition fee of these two semesters.
3-3.0	Fee Issue of two ICCR Students Basma Abdulraoof Binbrek (2013UCH1799) and Ali Ali Hssein Atef (2013UEC1801) It was brought to the notice to the committee members that two ICCR (Non-SAARC) students from Yemen namely Basma Abdulraoof Binbrek (2013UCH1799) and Ali Ali Hssein Atef (2013UEC1801) have not deposited the fee of their III and IV semester during the session 2014-15. Actually ICCR was supposed to send the fee amount but it has denied to pay the fee for 2014-15 because of their poor academic performance. ICCR had advised the students to pay the fee on their own. The Academic Affairs Committee discussed their case and recommended that since they have not paid their fee of session 2014-15, therefore, they may not be allowed to continue in the Institute.

ACADEMIC CONSORTIUM OF UNIVERSITIES OF RAJASTHAN (A Concept Paper)

In a world increasingly driven by knowledge, information and ideas, it is acknowledged that universities play a very important role in economic development. We currently live in a world where knowledge is the most desired tool. It is considered the main driver of economic growth and hence education has become the foundation on which individual and national prosperity rests. In today's global knowledge economy a university is no more limited to creating, integrating, repositing, disseminating and applying knowledge and learning. A university play a large role in shaping the future of the country. The role of a University is only not in producing immediate useful learning but also in preparing knowledge for an unpredictable future. In order to do so Universities must respond to a changing society and adapt to the realities of today's world by transforming its knowledge into potential benefits - economic and employment growth.

In India too, Universities and higher education is being looked upon to bring about economic change in the country. The Government has increased its efforts in improving quality, accessibility and availability of higher education. While Universities set to gain in such a patronage, however the challenges in this role have also increased. Competition, regulations leading to crippling of decision making, non-availability of quality human resources, challenges in meeting student expectations and meeting corporate expectations, ensuring focus on research etc. are some challenges being faced by all Universities, including the best in the country. Well functioning universities cannot be directly imported from other countries. They can only come from an organic, evolutionary process internal to a society, in-line with the existing socio- economic, cultural and physical settings.

As heads of big institutions, we are well aware of the huge efforts that each one of us is making to fulfill the role of the University in the society. I feel, we can perform better by collaborating with each other. There are many areas in which we can work jointly in a way that will result in a win-win for all. It is time we work together to address the challenges that we face.

The Consortium of well performing Universities is being envisioned as a world-class platform of higher learning with this philosophy.

Strategic Objectives

The principal objective of the Consortium will be to create a platform for multidimensional interaction among member universities on mutually agreed academic and research areas. The members may explore the areas of mutual interest, decide the broad framework of cooperation and sign bilateral/ multilateral MOU.

As a higher education partnership, the Consortium will be one of the foremost educational collaborative of the region, and will be a powerful academic force in the region. Consortium universities will represent nearly every sector of higher education, creating strength through its diversity of institutions.

Consortium member universities will be interconnected in numerous ways that will bring direct benefits to students as well as the region. Students will receive an enhanced educational experience, because they may cross-register for courses at other Consortium member institutions. Faculty research collaborations across member universities will bring in quality research projects.

The Consortium will be a "research-intensive" forum actively encouraging, supporting and integrating research into education. It will provide wider access, reward and promote interdisciplinary research, and establish research partnerships, with the goal of research outputs of high quality and impact.

Above all, the Consortium institutions will focus on three overarching goals: creating an educated populace that is highly employable; creating and promoting a dynamic, innovative academic ambience; and contributing in creation of knowledge through research. The member universities may discuss the strategic objectives of the Consortium, which may include

- Learning with understanding
- Retaining distinguished faculty with high academic credentials and talent
- Offering students world-class education and research opportunities that enhances their knowledge and skills
- Developing the holistic personality of students to hone their employability skills
- Ensuring a flexible and sustainable environment that fosters life-long learning for faculty, staff and students
- Joint supervision of research work leading to PhD degree
- Joint research projects
- Faculty exchange for need based courses/ topics
- Joint organization of programs leading to Degree/ Diploma/ Certificate
- Joint organization of Seminar/ Conference/ Workshop/ Technical events
- Collaborative research projects
- Exchange of academic materials and other information of common interest

The Model

The Consortium will be formed around Malaviya National Institute of Technology (MNIT), Jaipur at the nucleus, which is one of the premier institutions of the country.

The NHRDN will be the main coordinating and facilitating organization.

The membership will be by invitation. It is proposed to invite the following Universities in the Consortium.

GUIDELINES, OBJECTIVES & OPERATIONAL SCHEME FOR PROPOSED CENTER for SKILL DEVELOPMENT

1. About the Center

Today, the country faces a demand – supply mismatch as the economy needs more 'skilled' workforce as also the managers and entrepreneurs than produced annually. In fact, majority of the contemporary institutions of higher learning remain almost disconnected with the requirements of the workplace. In this context, the education system has to incorporate the requirements of various industries in its curriculum, in an innovative and flexible manner.

Government of India, taking note of the requirement for skill development among students developed National Vocational Education Qualification Framework (NVEQF) which was later on assimilated into National Skills Qualifications Framework (NSQF). Various Sector Skill Councils (SSCs) are developing Qualification Packs (QPs), National Occupational Standards (NOSSs) and assessment mechanisms in their respective domains, in alignment with the needs of the industry. There are several such schemes offered by UGC, National Skill development Council for promoting vocational education and skill development.

It is therefore proposed to consider establishing a Center for Skill Development in MNIT which would offer specialized courses leading to award of diplomas, advanced diploma, certificate courses etc. specific to skill development.

2. Objectives

The main objectives of the center will be to:

- a) create skilled manpower for industry requirements at various levels leading to certificate courses, diplomas, advanced diplomas and further research in specialized areas.
- b) work for coordination between the higher education system and industry to become a centre of Excellence for skill development in specialized areas as identified by Senate.
- c) network with other such centers and universities and colleges imparting vocational education under the scheme of Community Colleges and B.Voc. degree program in nearby region and coordinate with them for targeted development of skill oriented education.
- d) undertake R&D in the areas related to skill education & development, entrepreneurship, employability, labour market trends *etc.* at the post-graduate and research level.
- e) act as finishing school by providing supplementary modular training programs so that a learner, irrespective of his/her training background, is made job ready with necessary work skills (soft, communication, ICT skills *etc.*) and fill the gaps in the domain skills.

3. Basic Scheme for Curriculum Design of the Programs offered by the Center

All the programs offered by the center such as diplomas, advanced diploma, certificate courses etc. will be designed keeping in mind the need of

- i. Industry in specialized areas;

- ii. Instructional design, curriculum design and contents in the areas of Skills Development;
- iii. Pedagogy, assessment for skills development education and training;
- iv. trained faculty in the areas of skill development; and
- v. Entrepreneurship; *etc.*

While formulating the curriculum under the scheme, the Centers may follow credit based system and provide for provision for credit transfer across courses. The focus of skill development components would be to equip students with appropriate knowledge, practice and attitude, so as to make them work ready.

4. Target Group, Eligibility Criteria and Selection Procedure

The center will act as the finishing school for the undergraduates of MNIT and will focus on skill development of such students. The center would seek tie ups with various industries for their trainees and other academic institutions/research labs etc. for the enrolment of their employees, students for such programs.

In addition, it is proposed to keep admissions open for the other students and mode of selection can be decided depending upon the number of seats offered and the applications. In general, there will be a basic proficiency test for the selection of candidates for such programs.

Eligibility will be decided depending on the level of specialization and the type of degree offered (Diploma, Degree, and Certificate).

5. Nature of Assistance required in beginning for the Initiation of the activities in Center.

Assistance under the following heads will be required to start the Centre.

Start-up assistance

As decided by the competent authority.

Staff

One Professor, two Associate Professors, four Assistant Professors, one Technical Assistant and one Multi Tasking Staff (MTS). The positions are proposed as per the guidelines of UGC for such centers.

Operative Cost

A grant to cover running expenses of the center to meet the operational expenditure for the initiation of the center. The operative cost will be utilized for the following field visits for the awareness/advertisement of the program, preparation of materials, organizing seminars/workshops/training program, web creation, honorarium for engagement of guest / visiting faculty/resource persons, hiring services, contractual lab staff, meetings and contingency.

The allocation of the amounts under various heads mentioned above will be approved on yearly basis by the Advisory Committee.

6. Monitoring and Advisory Committees for the Supervision/ Regulation of the Center:

An Expert Committee may be constituted for supervising, monitoring and assisting in formulating the guidelines related to academic matters, operation, and smooth functioning of the center.
